PERDANA COLLEGE

Perdana College of Malaysia has been a provider of quality education in Bangladesh since 1995. We believe that laying a strong foundation for students embarking on a degree program is vital. The College focuses on preparing students to enter foreign universities, particularly in the discipline of computer science, information technology, information systems, business administration, management, and liberal arts.

The college is also a member of the Sedaya International Group of Universities, Colleges and School (URL: www.ucsi.edu.my) based in Kuala Lumpur, Malaysia. Campuses spread over Bangladesh, New Zealand and several cities in Malaysia.

UNIVERSITY COLLEGE SEDAYA INTERNATIONAL (UCSI)

UCSI is amongst the few Malaysian private colleges to offer a wide spectrum of academic studies ranging from Engineering to Information Technology and Business, Applied Sciences to Pharmacy and Medicine, Social Science to Music. With students coming from over 20 countries, UCSI possess a cosmopolitan and unique international culture. Thus, a student is also exposed to cross-cultural communication skills to enhance their future career pathways locally or internationally.

A UCSI student's learning experience is further enhanced by the cutting-edge technology, and the support of well-qualified and friendly faculty. State-of-art facilities include a home-grown connected e-campus through the e-Advantage, computer labs, applied science labs and a well-stocked library.

Careers for Psychology: public and private service organizations, personnel selection and management, and applied research; counselors, speech therapists, special education teachers and university lecturers. Clinical psychologists must complete the Postgraduate Diploma in Clinical Psychology together with a Masters or PhD in Psychology.

Careers for Mass Communications: electronic publishing, online content, journalism, information officers, public relations and communications research; marketing; work in radio or television production

Admissions

Students with the following qualifications may be admitted:

1. 'A' Level, HSC, ISC or Equivalent

- (a) HSC/ISC (Minimum 2nd Division) with good passes in Biology and English or
- (b) 2 principals from 'A' Level and 3 credits from 'O' Level, including Biology or
- (c) 3 principals from 'A' Level and 2 credits from 'O' level, including Biology

Students who are deficient in Mathematics and English will have to go through some remedial courses (such as English and Algebra & Trigonometry) before they can be admitted into First Year of the program. A student who only has biology at the "O" or SSC level (the minimum requirement,) will have to do biology bridging course. Minimum English requirement is IELTS 6.0 or TOEFL 550 (computerized test 213).

2. 'O' Level, SSC, ICSE or Equivalent

Students should have acquired at least 5 'O' Level credits, 1st Division, or GPA > 3 (including Biology, Mathematics and English). Students in this category are required to undergo a minimum 3 semesters of the Pre-University Program before they can be admitted into the Program.

3. Degree, NCC Diploma, C&G Diploma and Transfer Students

Exemptions from certain subjects may be granted to degree or diploma holders on case-by-case basis. For students intending to transfer credits from other institutions, contact the VP of Academic Affairs.
